8 Write the following fractions in order of size.
Start with the smallest fraction.

$\frac{1}{3}$ $\frac{3}{4}$ $\frac{1}{4}$ $\frac{7}{12}$ $\frac{1}{2}$

$\frac{1}{4} = \frac{3}{12}$ $\frac{1}{3} = \frac{4}{12}$ $\frac{1}{2} = \frac{6}{12}$ $\frac{7}{12} = \frac{7}{12}$ $\frac{3}{4} = \frac{9}{12}$

1 mark
Convert to twelfths (at least two correct conversions).

1 mark
All five in ascending order.

$\frac{1}{4} < \frac{1}{3} < \frac{1}{2} < \frac{7}{12} < \frac{3}{4}$

(Total for Question 8 is 2 marks)
