22 Hannah is planning a day trip for 195 students.

She asks a sample of 30 students where they want to go.
Each student chooses one place.

The table shows information about her results.

Place	Number of students
Theme Park	10
Theatre	5
Sports Centre	8
Seaside	7

(i) Work out how many of the 195 students you think will want to go to the Theme Park.

	Students	Theme Park	
×6.5	30	10	×6.5
	195	65	

1 mark
Use the same proportion for all 195 students.

Estimated number = 65 students

1 mark
65 students.

65

(2)

(ii) State any assumption you made **and** explain how this may affect your answer.

Assume the sample represents all 195 students.

If it is biased, the actual number wanting to go

to the Theme Park could be higher or lower.

(1)

1 mark
State the assumption and explain its effect on the estimate.

(Total for Question 22 is 3 marks)
