25 Sally used her calculator to work out the value of a number y.

The answer on her calculator display began

8.3

Complete the error interval for y.

The display begins 8.3, so y starts at 8.3

and is less than 8.4.

1 mark
Lower endpoint 8.3.

1 mark
Upper endpoint 8.4.

8.3 $\leqslant y <$ 8.4

(Total for Question 25 is 2 marks)
