13 This shape is made from two rectangles.

(a) Work out an estimate for the total area of the shape.

Round to 1 significant figure: 2, 2, 5, 7 cm.

Area ≈ (2 × 2) + (5 × 7)

= 4 + 35 = 39 cm².

1 mark
Round dimensions

2 marks total
Two rectangle areas
39 cm²

..... cm²

(3)

(b) Is your answer to (a) an overestimate or an underestimate?
Give a reason for your answer.

Underestimate: all four lengths were rounded down,

so both estimated rectangle areas are too small.

1 mark
Underestimate, with reason
