11 Joan measured the heights of students in four different classes.

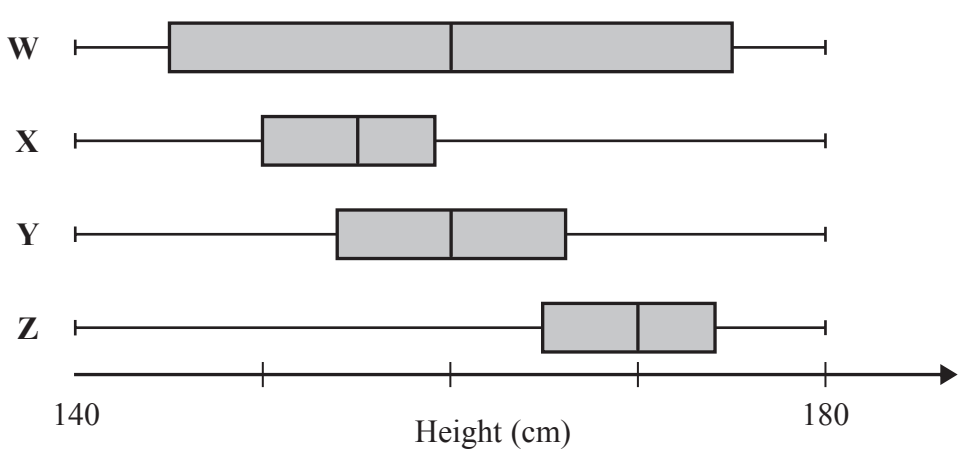

She drew a cumulative frequency graph and a box plot for each class.

Read quartiles at cumulative frequencies 7.5, 15 and 22.5.

Compare medians and box widths with the same height scale.

Match each cumulative frequency graph to its box plot.

Cumulative frequency graph	Box plot
A	Y
B	X
C	Z
D	W

2 marks total
All four matches
A–Y, B–X
C–Z, D–W

(Total for Question 11 is 2 marks)
