22 The graph of $y = f(x)$ is shown on the grid.

Graph **A** is a reflection of the graph of $y = f(x)$.

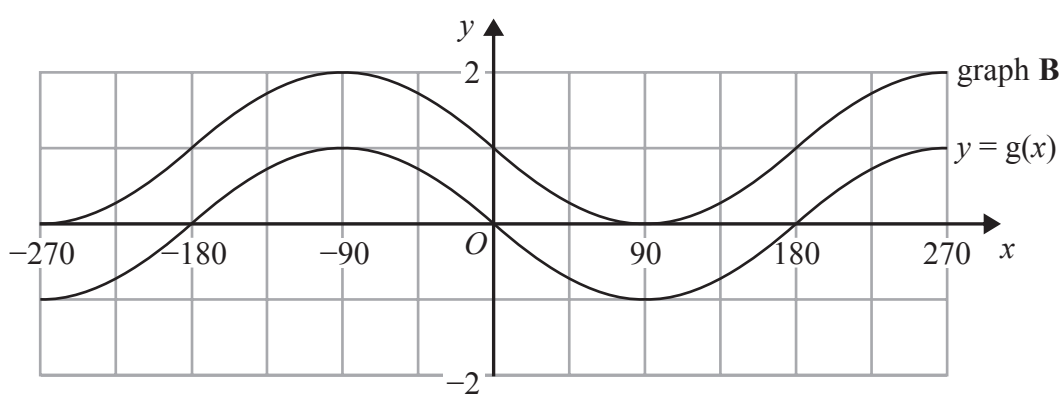

(a) Write down the equation of graph **A**.

Reflection in the y-axis: y = f(−x).

1 mark
y = f(−x)

(1)

The graph of $y = g(x)$ is shown on the grid.

Graph **B** is a translation of $y = g(x)$.

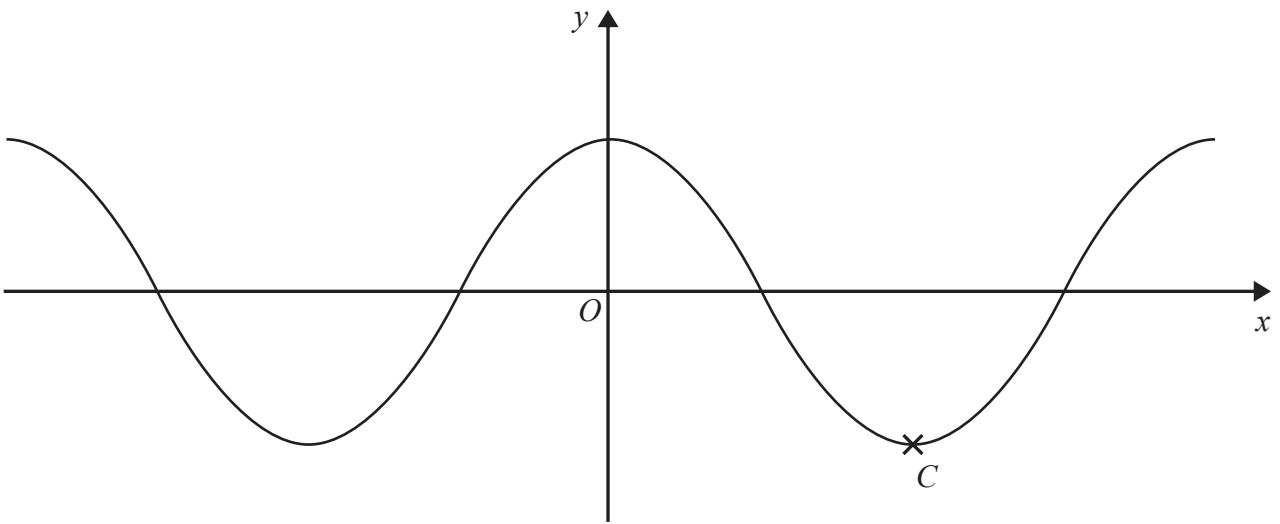

(b) Write down the equation of graph **B**.

Shift up 1 unit: y = g(x) + 1.

1 mark
y = g(x) + 1

(1)

The graph of $y = \cos x°$ is shown.

(c) Write down the coordinates of the point marked C.

First cosine minimum for $x > 0$ is $(180°, -1)$.

1 mark

(180, –1)

(..... , ...)

(1)

(Total for Question 22 is 3 marks)
