14 $\frac{3}{8}$ of the people at a football match are men.

27% of the people at the match are women.
The rest of the people at the match are children.

Work out what percentage of the people at the match are children.

$\frac{3}{8}$ = 0.375 = 37.5% men.

1 mark
Convert 3/8 to 37.5%

Adults = 37.5% + 27% = 64.5%.

1 mark
Subtract both adult groups

Children = 100% – 64.5% = 35.5%.

1 mark
35.5%

..... %

(Total for Question 14 is 3 marks)
