20 The diagram shows a shape made by overlapping two identical squares.

The area of the shaded region is 25% of the area of each square.

Work out what fraction of the area of the whole shape is shaded.

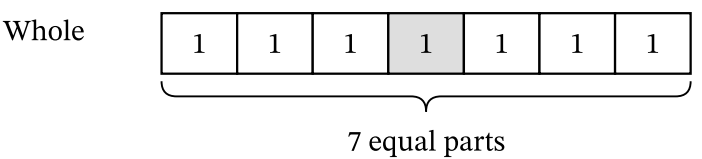

Treat each square as 4 equal area units.

The shaded overlap is 1 unit, counted only once.

Whole shape = 4 + 4 − 1 = 7 units.

1 mark
Overlap is 1/4 of a square

1 mark
Whole shape = 7 units

Shaded fraction $= \frac{1}{7}$

1 mark
1/7

(Total for Question 20 is 3 marks)
