22 Here is a number line.

2 marks total
Filled at −2; open at 3; join

(a) On this number line, show the inequality $-2 \leqslant x < 3$

(2)

(b) Solve $5n + 3 > 27$

$5n + 3 > 27$
$-3 \qquad -3$
$5n > 24$
$\div 5 \qquad \div 5$
$n > 4.8$

1 mark
Subtract 3
from both sides

1 mark
n > 4.8

(2)

(Total for Question 22 is 4 marks)
