9

Tom says,

"*ABC* **cannot** be a straight line."

Explain why Tom is correct.

146° + 32° = 178°, which is not 180°.

1 mark
Find angle sum

Angles on a straight line must add to 180°.

1 mark
178° ≠ 180°; correct reason

(Total for Question 9 is 2 marks)
