16 For her maths homework, Helen answered the following question.

Shade the region that is defined by all these inequalities.

$x + y \leqslant 6$ $y \geqslant 0$ $y \leqslant x + 2$

Here is Helen's answer.

Helen made some mistakes when she answered the question.

Write down two mistakes Helen made.

1 She drew x + y = 7; it should be x + y = 6.

1 mark
Wrong boundary

2 She shaded above y = x + 2; it should be below.

1 mark
Wrong side

(Total for Question 16 is 2 marks)
