4 The diagram shows a shape *ABCDEF*.

All the corners of the shape are right angles.
The perimeter of the shape is 28 m.

Work out the area of *ABCE* shown shaded on the diagram.

$DE = 4 + 2 = 6$ m.

$FE = (28 - 2 \times 6) \div 2 = 8$ m.

1 mark
Use perimeter to find AB = 5 m

$AB = 8 - 3 = 5$ m.

Triangle $ABE = \frac{1}{2} \times 5 \times 4 = 10$ m^2.

1 mark
Find a triangle area

Triangle $BCE = \frac{1}{2} \times 2 \times 3 = 3$ m^2.

1 mark
Complete both areas

Shaded area $= 10 + 3 = 13$ m^2.

1 mark
13

1 mark
Correct units: m^2

(Total for Question 4 is 5 marks)
