27 *ABC* is a right-angled triangle.

Opposite

Adjacent

Work out the size of the angle marked x.
Give your answer correct to 1 decimal place.

$\tan x = \frac{1.9}{3.2}$

1 mark
Opposite ÷ adjacent

$x = \tan^{-1}(1.9 \div 3.2)$

$x = 30.6997...° \approx 30.7°$

1 mark
30.7° (1 d.p.)
