3 The bar chart shows the number of hours of sunshine each day last week in Margate and in Newquay.

(a) On how many days did Newquay have less than 5 hours of sunshine?

Newquay: Thursday, Friday, Saturday and Sunday.

..... days

1 mark
4 days

(1)

In total, Margate had more hours of sunshine than Newquay last week.

(b) How many more?

Margate = 5 + 6 + 7 + 5 + 3 + 6 + 7 = 39 hours.

Newquay = 7 + 6 + 6 + 3 + 2 + 4 + 4 = 32 hours.

Difference = 39 – 32 = 7 hours.
