25 Here is the graph of $y = x^2 - 2x - 4$

(a) Write down estimates for the roots of $x^2 - 2x - 4 = 0$

Roots are where y=0: x ≈ -1.2 and3.2.

2 marks total
Both intercepts

.....

(2)

(b) Write down the coordinates of the turning point of $y = x^2 - 2x - 4$

Lowest point: (1, -5).

1 mark
(1,–5)
