4 Here is the graph of $y = x^2 - 2x - 4$

(a) Write down estimates for the roots of $x^2 - 2x - 4 = 0$

x-axis crossings: about -1.2 and 3.2.

2 marks total
Both roots

(2)

(b) Write down the coordinates of the turning point of $y = x^2 - 2x - 4$

Minimum at (1, -5).

(..... , ...)

(1)

1 mark
Turning point (1, −5)

(Total for Question 4 is 3 marks)
