15 There are 360 golf balls in a bucket.
There are

60 yellow golf balls
50 orange golf balls
40 pink golf balls

The rest of the golf balls are white.

What fraction of the golf balls are white?
Give your fraction in its simplest form.

White = 360 − (60 + 50 + 40) = 210.

$\frac{210}{360} = \frac{7}{12}$
