24 Only blue vans and white vans are made in a factory.

The ratio of the number of blue vans to the number of white vans is 4 : 3

(a) Write down the fraction of vans that are blue.

Blue	White
4	3

4 blue out of 7 total.

$\frac{4}{7}$

1 mark
4/7

(1)

For blue vans,

the number of small vans : the number of large vans = 3 : 5

(b) Work out the fraction of the number of vans made in the factory that are blue and large.

Small	Large
3	5

$\frac{4}{7} \times \frac{5}{8}$

$= 20/56 = 5/14$

1 mark
5/8 ofblue are large
