14 A cafe owner sells 10 different types of sandwich.

Rayheem buys a different type of sandwich on Monday, on Tuesday and on Wednesday.

In how many ways can he do this?

Monday:10 choices.

1 mark
Multiply ordered choices

Tuesday:9 remaining; Wednesday:8 remaining.

$10 \times 9 \times 8 = 720$ ways.

1 mark
720

(Total for Question 14 is 2 marks)
