7 Mary, Bianka and Steve are picking apples.

Mary picks 264 apples.
$\frac{1}{6}$ of these apples are green.

Bianka picks 150 apples.
28% of these apples are green.

Steve picks 340 apples.
15% of these apples are green.

Who picks the most green apples?
You must show all of your working.

Mary

	Total	Green	
	6	1	
×44			×44
	264	44	

264 ÷ 6 = 44 green.

1 mark
First green count

Bianka

%	Apples
100	150
28	42

0.28 × 150 = 42.

1 mark
Two green counts

Steve

%	Apples
100	340
15	51

0.15 × 340 = 51.

1 mark
All three counts

Steve:51 is greater than44 and42.
