15 On the grid show, by shading, the region defined by the inequalities

$$x < 4 \qquad 2x + y > 6 \qquad y > \frac{1}{3}x$$

Label the region **R**.

Use x=4, y=6−2x and y=x÷3 as boundaries.

All inequalities are strict: draw dashed boundaries.

1 mark
One correct line

1 mark
All three lines

1 mark
Common overlap labelled R

(Total for Question 15 is 3 marks)
