12 (a) Write down the value of 25^0

$25^0 = 1$

1 mark
Non-zero base to power zero.

(1)

(b) Find the value of $49^{-\frac{1}{2}}$

Negative power: take the reciprocal.

$49^{-\frac{1}{2}} = \frac{1}{\sqrt{49}} = \frac{1}{7}$

1 mark
Reciprocal and square root.

1 mark
One seventh.

(2)

(c) Find the value of $64^{\frac{2}{3}}$

Cube root of 64 = 4 (because $4^3 = 64$).

1 mark
Root first.

Then square: $4^2 = 16$

1 mark
Then square.

(2)

(Total for Question 12 is 5 marks)
