20 *ABC* and *PQR* are similar triangles.

$AB : PQ = 2 : 5$

(i) Work out the length of *PQ*.

Scale	AB PQ	BC QR
2	9	7.2
×2.5	×2.5	×2.5
5	22.5	18

$PQ = 9 \times 2.5 = 22.5$ cm

1 mark
Scale factor 5/2.

1 mark
22.5 cm.

..... cm
(2)

(ii) Work out the length of *BC*.

$BC = 18 \div 2.5 = 7.2$ cm

1 mark
Reverse the scale.

1 mark
7.2 cm.

..... cm
(2)

(Total for Question 20 is 4 marks)
