13 There are 30 sweets in a bag.
13 of the sweets are yellow.
The rest of the sweets are red.

(a) What fraction of the sweets in the bag are red?

Red = 30 − 13 = 17

$\frac{17}{30}$

1 mark
Red out of all sweets.

.....

(1)

(b) Write as a ratio the number of yellow sweets to the number of red sweets.

13 : 17

1 mark
Yellow : red.

.....

(1)

(Total for Question 13 is 2 marks)
