1 Work out an estimate for the value of $\dfrac{297 \times 9.44}{0.503}$

297 → 300; 9.44 → 10; 0.503 → 0.5

1 mark
Round to easy values.

$\dfrac{300 \times 10}{0.5}$ = 3000 ÷ 0.5 = 6000

1 mark
Calculate with rounded numbers.

1 mark
Estimate 6000.

.....

(Total for Question 1 is 3 marks)
