DO NOT WRITE IN THIS AREA

11 Jo has to make h the subject of the formula $d = \frac{\sqrt{3h}}{2}$

Here is her working.

$2d = \sqrt{3h}$

$2d^2 = 3h$

$h = \frac{2d^2}{3}$

What mistake has Jo made in the second line of her working?

She did not square the 2.

1 mark
Square the whole 2d.

$(2d)^2 = 4d^2$, not $2d^2$.

(Total for Question 11 is 1 mark)
