10 During one 24-hour period, Sid spent his time relaxing, sleeping, reading or being active.

The pie chart shows some information about the length of time Sid spent doing these different activities.

(a) Work out the percentage of the 24 hours that Sid spent relaxing.

100 – 38 – 31 – 15 = 16%

1 mark
Subtract known percentages.

1 mark
16%.

..... %

(2)

(b) Work out how many of the 24 hours Sid spent reading.

15% of 24 = 0.15 × 24 = 3.6 hours

1 mark
Percentage of 24.

1 mark
3.6 hours.

..... hours

(2)

Sid says,

"I spent more than one third of the 24 hours sleeping."

(c) Is Sid correct?
Give a reason for your answer.

No. One third is 33.333...%, which is more than 31%.

.....

.....

1 mark
Compare the same quantity: 31% < one third.

.....

(1)

(Total for Question 10 is 5 marks)
