11 Sweets are sold in tubes.

There are 15 sweets in a tube.

Adam buys t tubes of sweets.

(a) Write down an expression, in terms of t, for the total number of sweets Adam buys.

$15t$

1 mark
15 sweets for each tube.

.....

(1)

$p = 3r + 2$

(b) Work out the value of r when $p = 17$

$17 = 3r + 2$

1 mark
Substitute p = 17.

$15 = 3r$, so $r = 5$

1 mark
Subtract 2, then divide by 3.

.....

(2)

(Total for Question 11 is 3 marks)
