12

(a) Write down the inequalities that define the shaded region.

1 mark
Identify two boundaries.

Bottom boundary: $y = -2$; shade above.

$y \geq -2$

1 mark
Identify all three.

$y \leq x + 1$

1 mark
Use inclusive inequalities.

$5x + 4y \leq 20$

Natalie is asked to shade the region $y \geqslant x$ on a coordinate grid.

Here is her answer.

(b) What error has Natalie made?

1 mark

She drew y = -x, rather than y = x.

The boundary line is wrong.

The boundary should rise through the origin.
