16 The stem and leaf diagram shows information about the weights, in kg, of 20 bags.

8	3	5	5	6	7	9	
9	4	5	6	7	8	8	9
10	1	2	3	4	7		
11	0	1					

Key: 8|3 represents 8.3 kg

(a) Find the range of the weights of these bags.

Range = 11.1 – 8.3 = 2.8 kg

1 mark
Read the decimal key.

1 mark
2.8 kg

..... kg

(2)

One of the 20 bags is chosen at random.

(b) Find the probability that the bag has a weight greater than 10 kg.

5 bags in the 10 stem + 2 in the 11 stem = 7

$$\frac{7}{20}$$

1 mark
7 heavier than 10 kg out of 20.

1 mark
7/20.

.....

(2)

(Total for Question 16 is 4 marks)
