18 The diagram shows two points A and B.

1 mark
Circle centred on A, radius 4 cm.

1 mark
Perpendicular bisector: halfway between A and B.

On the diagram show, by shading, the region that contains all the points that are

less than 4 cm from A
and closer to B than to A.

1 mark
Shade inside the circle on B's side of the bisector.

(Total for Question 18 is 3 marks)
