10 Toby is a plumber.

He starts a job at 8 am and finishes the job at 11 am.

For this job, Toby charges

£30 for every hour it takes him to complete this job
plus £45 for the materials he uses.

Work out how much Toby charges for this job.

11 am – 8 am = 3 hours

1 mark
Find the duration of the job.

3 × £30 + £45 = £90 + £45

1 mark
Add the materials once, after the hourly charge.

1 mark
The complete charge is £135.

£ 135

(Total for Question 10 is 3 marks)
