DO NOT WRITE IN THIS AREA

22 Here are the first five terms of an arithmetic sequence.

5 13 21 29 37

Write down an expression, in terms of n, for the nth term of the sequence.

Common difference = 8

8n gives 8, 16, 24, 32, 40

Subtract 3: nth term = 8n – 3

8n – 3

2 marks total

Use the difference as the coefficient; check n = 1 gives 5.

(Total for Question 22 is 2 marks)
