10 A model bus has a length of 25 cm.

The scale of the model is 1 : 48

Work out the length of the real bus.
Give your answer in metres.

25 cm × 48 = 1200 cm

1200 ÷ 100 = 12 metres

3 marks total
Multiply by the scale, then convert centimetres to metres.

.....12..... metres

(Total for Question 10 is 3 marks)
