8 There are some buttons in a tin.

35% of the buttons are red.

(a) What percentage of the buttons are **not** red?

100% – 35% = 65%

1 mark
Red and not red make the whole 100%.

65 %

(1)

(b) What fraction of the buttons are red?

$\frac{35}{100} = \frac{7}{20}$

1 mark
Simplify by dividing numerator and denominator by 5.

$\frac{7}{20}$

(1)

(Total for Question 8 is 2 marks)
