18 80 people are asked if they prefer football or rugby.

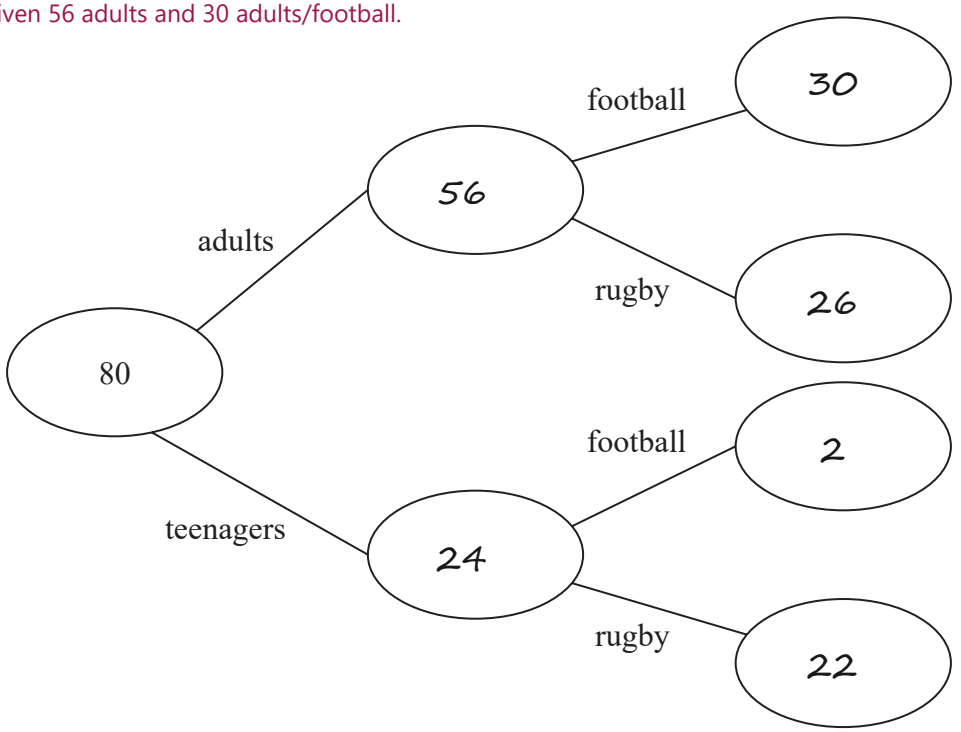

56 of the people are adults and the rest are teenagers.
30 of the adults prefer football.
40% of the people prefer football.

Complete the frequency tree for this information.

Teenagers: 80 − 56 = 24

Total football: 40% of 80 = 32

1 mark
Place the given 56 adults and 30 adults/football.

1 mark
Adults/rugby: 56 − 30 = 26.

1 mark
Find all football32, so teenagers/football = 32 − 30 = 2.

1 mark
Teenagers/rugby:
24 − 2 = 22.

(Total for Question 18 is 4 marks)
