DO NOT WRITE IN THIS AREA

7 There are 20 pencils in a bag.

12 of the pencils are blue.
1 of the pencils is white.
4 of the pencils are green.
The rest of the pencils are red.

(a) Work out the number of red pencils in the bag.

Known pencils: 12 + 1 + 4 = 17

Red pencils: 20 − 17 = 3

3

2 marks total
Subtract the three known colours from all 20 pencils.

(2)

A pencil is taken at random from the bag.

(b) Write down the probability that the pencil is white.

$\frac{1}{20}$

1 mark
One white pencil out of 20 equally likely pencils.

(1)

(Total for Question 7 is 3 marks)
