10 Jake and Sarah each played a computer game six times.

Their scores for each game are shown below.

Jake	10	9	8	11	12	8
Sarah	2	10	7	14	4	10

(a) Who had the most consistent scores, Jake or Sarah?
You must give a reason for your answer.

Jake: range = 12 – 8 = 4. Sarah: range = 14 – 2 = 12.

Jake is more consistent because his range is smaller.

1 mark
Compare the spread of the scores

(1)

Jake played a different game 20 times.

The stem and leaf diagram shows information about his scores.

0	9
1	2 3 3 4 5
2	5 6 6 6 6 7
3	1 3 4 6 8
4	0 2 9

Key
1 | 2 represents 12 points

Jake said his modal score was 6 points because 6 occurs most often in the diagram.

(b) Is Jake correct?
You must explain your answer.

No. A leaf 6 on stem 2 represents 26 points.

The modal score is 26, which occurs four times.

1 mark
Use both the stem and the leaf
