13 Ellie makes hats.
She makes at least 17 hats per hour.
She is paid 46p for each hat she makes.

Reaze is a waiter.
He works 35 hours and is paid a total of £266

Show that Ellie's hourly rate of pay is more than Reaze's hourly rate of pay.

Compare the pay for one hour. GBP = pounds.

Ellie: at least 17 hats per hour.

	Hats	GBP	
×17	1	0.46	×17
	17	7.82	

1 mark
Start finding comparable hourly pay

Reaze: £266 in 35 hours.

	Hours	GBP	
÷35	35	266	÷35
	1	7.6	

1 mark
Find both hourly rates

Ellie: at least £7.82/h; Reaze: £7.60/h.

£7.82 > £7.60, so Ellie's hourly pay is higher.
