13 Azmol, Ryan and Kim each played a game.

Azmol's score was four times Ryan's score.
Kim's score was half of Azmol's score.

Write down the ratio of Azmol's score to Ryan's score to Kim's score.

Let Ryan have 1 share.

Azmol has 4 shares; Kim has half of 4, so 2 shares.

1 mark
Represent the linked scores as shares

Azmol	Ryan	Kim
4	1	2

Azmol : Ryan : Kim = 4 : 1 : 2

1 mark
Keep the names in the requested order

4 : 1 : 2

(Total for Question 13 is 2 marks)
