11 In a restaurant there are

9 starter dishes
15 main dishes
8 dessert dishes

Janet is going to choose one of the following combinations for her meal.

a starter dish and a main dish
or a main dish and a dessert dish
or a starter dish, a main dish and a dessert dish

Show that there are 1335 different ways to choose the meal.

Starter and main: $9 \times 15 = 135$

1 mark
Multiply choices for one meal

Main and dessert: $15 \times 8 = 120$

Starter, main and dessert: $9 \times 15 \times 8 = 1080$

1 mark
Include all three combinations

Total = $135 + 120 + 1080 = 1335$

1 mark
Add the three distinct cases

(Total for Question 11 is 3 marks)
