2 Sean has information about the height, in cm, and the weight, in kg, of each of ten rugby players.

He is asked to draw a scatter graph and a line of best fit for this information.

Here is his answer.

Sean has plotted the points accurately.

Write down two things that are wrong with his answer.

1 The line of best fit does not pass through the middle of the points.

1 mark

Identify the unsuitable line

2 The height scale is not linear: 150 is missing.

1 mark

Equal gaps should represent equal increases

(Total for Question 2 is 2 marks)
