9 Martin truncates the number N to 1 digit.
The result is 7

Write down the error interval for N.

Truncating cuts off the digits after the 7.

The value can be 7, but it must be less than 8.

1 mark
Identify the bounds 7 and 8

1 mark
Include 7; exclude 8

$7 \leq N < 8$

(Total for Question 9 is 2 marks)
