16 Maria invests £4500 in a savings account for 3 years.
The account pays simple interest at a rate of 1.8% per year.

Work out the total amount of interest Maria gets by the end of the 3 years.

Interest per year = 1.8% of £4500 = £81

Simple interest for 3 years = 3 × £81

= £243

2 marks total
Find yearly interest
