11 Megan grows potatoes.

The box plot below shows information about the weights of Megan's potatoes.

Megan says that half of her potatoes weigh less than 50 grams each.

(a) Is Megan correct?
Give a reason for your answer.

No. Megan's median is 57 g, so half are below 57 g,

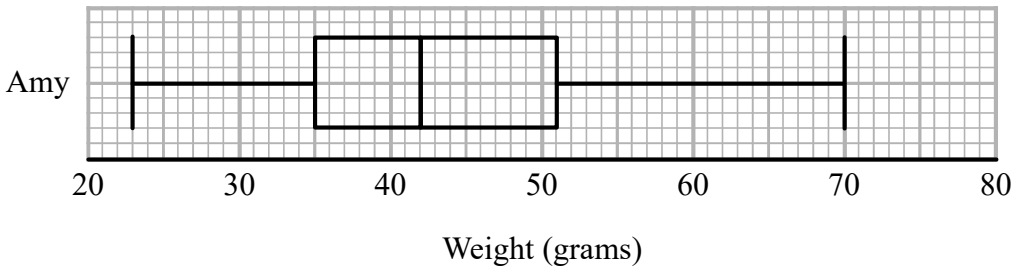

not necessarily below 50 g.

1 mark
No: median is 57 g

(1)

Amy also grows potatoes.

The box plot below shows information about the weights of Amy's potatoes.

(b) Compare the distribution of the weights of Megan's potatoes with the distribution of the weights of Amy's potatoes.

Megan's median 57 g exceeds Amy's 42 g:

Megan's potatoes are typically heavier.

2 marks total
Compare median and IQR

Megan's IQR 26 g exceeds Amy's 16 g:

Megan's middle half varies more in weight.
