8 Here are the first five terms of a sequence.

1 3 6 10 15

Write down the next two terms of the sequence.

2 marks total
Next term 21
Then 28

Differences: +2, +3, +4, +5; then 15 + 6 = 21, 21 + 7 = 28.

..... , ...

(Total for Question 8 is 2 marks)
