DO NOT WRITE IN THIS AREA

20 The first five terms of an arithmetic sequence are

1 4 7 10 13

Write down an expression, in terms of n, for the nth term of this sequence.

Common difference = 3, so start with 3n.

At n = 1, 3n gives 3; subtract 2 to get 1.

nth term = 3n – 2.

2 marks total
Difference 3 → 3n
Adjust by −2

(Total for Question 20 is 2 marks)
