Juan says

"60% of this group of people have a weekly wage of £360 or less."

(c) Is Juan correct?
You must show how you get your answer.

60% of 80 = 48 people. At £360, CF ≈ 39–40.

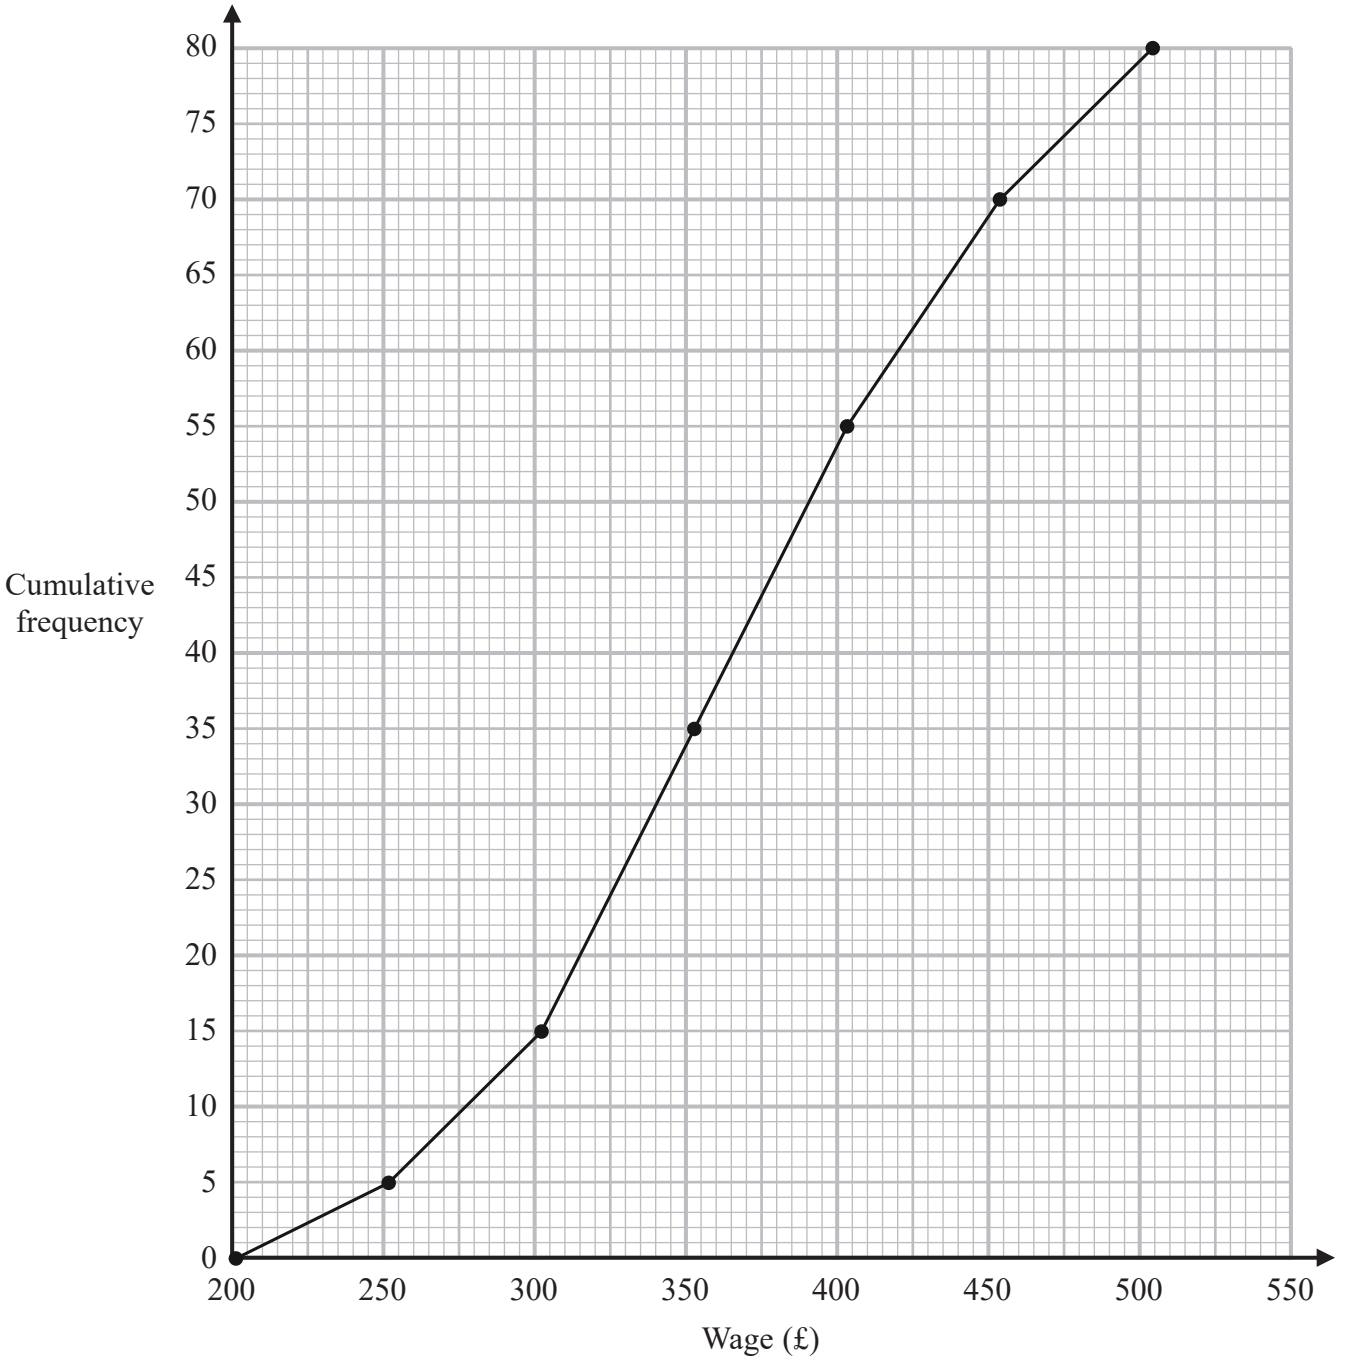

39/80 × 100 ≈ 49%, below 60%; Juan is not correct.
