12 The graph gives information about the volume, v litres, of petrol in the tank of Jim's car after it has travelled a distance of d kilometres.

(a) Find the gradient of the graph.

Gradient = (0 – 27)/(300 – 0)

= –27/300 = –0.09 litres per kilometre.

2 marks total
Change in volume / distance
–0.09 L/km

(2)

(b) Interpret what the gradient of the graph represents.

The tank loses 0.09 litre of petrol per kilometre travelled.

1 mark
Fuel used per km

(1)

(Total for Question 12 is 3 marks)
