19 Robin buys a watch for £80
He sells the watch for £56

Work out his percentage loss.

Loss = £80 – £56 = £24.

Percentage loss = 24/80 × 100 = 30%.

3 marks total
Loss £24
Divide by original £80
30%

..... %

(Total for Question 19 is 3 marks)
